

FCC:

Sinclair Broadcasting's decision to force their 62 local stations to air an anti-Kerry documentary days before the election is a clear example of their abuse of publicly owned airwaves.

The public frequencies, that Sinclair uses free of charge, are supposed to be used for good of the public. Sinclair Broadcasting is violating this intent by forcing their local stations to broadcast dishonest political propaganda.

They appear to be doing this in order to undermine the upcoming national vote and increase their influence with the current administration's regulator practices.

If the already damaged electoral process in the United States is to survive, Sinclair Broadcasting must be stopped. Please do everything in your power to prevent this abuse and to restore honesty and fairness to our nations broadcast media.

Thank you,

James C. Estes
